### **Extended Closure on Old Lemay Ferry Road Due to Utility Conflicts**

The ongoing reconstruction of Old Lemay Ferry Road has encountered unforeseen utility conflicts, requiring an extended closure of the roadway between Frisco Hill Road and approximately 2,000 feet to the north. This section will remain closed until the conflicts with a gas main, water main, and electric poles can be mitigated, after which road widening and resurfacing work can begin. The Jefferson County Department of Public Works is actively coordinating with the contractor, Above & Below, and our utility partners to expedite the necessary design and construction efforts. These improvements are essential to ensure the safe and efficient reopening of the roadway.

During this time, the signed detour route will remain in effect to help motorists navigate around the closure. We anticipate that the road will be reopened to two-way traffic by September 2<sup>nd</sup>, 2025. Construction activities will continue onsite until the completion of the entire project.

We appreciate the public's patience and cooperation as we work to complete these critical infrastructure upgrades.
