19. Attachments:

20. Project Details:

The proposed work includes: removal and replacement of failed concrete panels in subdivisions within the Jefferson County area. The project includes, but is not limited to, the following construction activities: removal of existing concrete panels and poor subgrade material, placement of type 5 aggregate for base, furnishing and placing new concrete, crack/joint sealing at newly installed panels, and setting up traffic control devices to handle vehicle traffic and parking within and around the construction work zone.
