- 14. Estimated Construction Start Date:** August 2023
- 15. Estimated Construction Completion Date:** June 2024

16. Project Details: The proposed work includes the installation of an underground storm water discharge system with concrete curb and gutter along the roadway to correct drainage and ponding issues. Another major element of the project will be the installation of a ten (10) foot wide paved pedestrian shared use path behind the concrete curb. The first three (3) feet of this SUP will be a red brick stamped concrete buffer and will include decorative street lighting.
