SEALED BID: (BID NAME)

Contract Term:
UPON APPROVAL OF THE
COUNTY COUNCIL AND
COUNTY EXECUTIVE

The undersigned certifies that he/she has the authority to bind this company in an agreement/contract to supply the commodity or service in accordance with all terms, conditions, and pricing specified. This Bid, if accepted, will constitute an Agreement and Contract with Jefferson County, Missouri, upon approval of the County Council and County Executive. Prices are firm during this agreement term, unless agreed upon in writing by the County. The County has the option to renew this agreement at the same terms and conditions as the original agreement for one additional one-year term with the written consent of the successful Bidder. Price increases for renewals are not authorized unless approved in writing by the County.

A PUBLIC SAFETY EQUIPMENT COMPANY

LIGHTING TECHNOLOGY

TriCore®

Based on a proprietary design technology, this is the brightest, LED light head on the market today offering the most uniform fill and a world class signal strength both straight on and at any off-angle. Available in single and multicolor 3 and 6 module LED configurations.

PriZm™ II

A custom designed, full-size parabolic reflector offering a premier fill, straight on and off-angle performance and utilizing the latest state-of-the-art LED technology. Available in single and multicolor 3, 8 or 12 LED configurations.

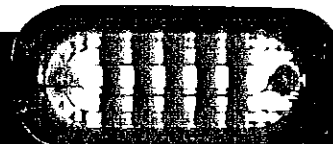

SIRIS™

Structured Internal Reflector Illumination System. Available in single and multicolor with 9 & 18 LED configurations.

Torus™

3-Up Lens
with Torus Technology

T-Rex Lens
with Torus Technology

The next generation replacement to the highly successful Optix light heads, these use total internal reflection (TIR) technology in a more compact, yet powerful light head design requiring only one optical configuration to offer superior straight-on and off-angle performance. This light head utilizes the latest state-of-the-art LED technology. Available in 3, 4, 6 and 9 LED configurations.

XT Series

Designed for auxiliary or secondary warning lights, these compact yet powerful LED lights are available in 3, 4 & 6 LED configurations.

LED X™

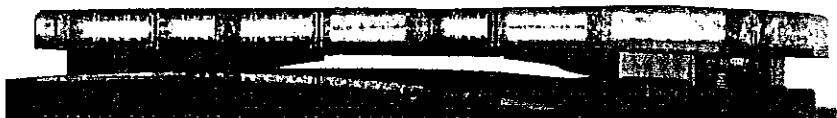

Now available with a newly designed lighthouse that provides superior performance both straight-on and off-angle. The unique design comes with two rows of 4 LEDs, offering an exceptionally bright and tight signal. It has also been upgraded to the latest state-of-the-art LED technology.

All Code 3 TriCore and LED Lighthouses Have a 5 Year Warranty

Design Features

- World Class Innovative Patented Lighthead Design
- 2 – 2.5 Times Brighter than any Lightbar at Key 45° and 60° Intersection Angles
- Far Brighter Alley & Takedown Lights than Traditional Halogen or LEDs
- 2 Times Brighter Signal from Rear of the Lightbar
- Advanced Central Control Circuitry
- Dimming Mode Meets SAE Safety Standards
- Runs Cooler Than Other Lightbars
- Universal Lighthead Design
- Modular Lens System for Creating Lightbars of Virtually Any Length
- 2 Times Stronger Frame

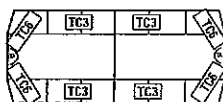

Specifications

- Standard Lengths: 23", 35", 36", 44", 47", 48", 52", 58", 70", 82", 94"
- 13.5" D x 2.25" H
- 12 Volt
- Black Intermolded Solar Barrier is Standard
- LIT3KIT Mounting Kit Included (Lights not Included)
- 5 Year Warranty on TriCore® Lighthead
- Meets SAE J845, NFPA, California Title 13 and ECE65 Specifications when Properly Configured.
- U.S. Patent Nos. 7,153,015 and 7,300,175

RX 2700™ MC (MULTI-COLOR CAPABILITY) BUILD-YOUR-OWN

The RX 2700™CC with MultiColor (MC) lightbar uses the latest LED dual color technology to

provide intense color that is 20% brighter than any competitive MultiColor technology.

Benefits

- This next generation lightbar provides multiple colors from one lighthead module. No splits, just full color signal followed by another full color signal. Literally, two full lightbars in one! MC is available in red/blue, red/white, blue/white, red/amber, blue/amber, and amber/white lightheads.
- Another MC breakthrough: Takedown lights without purchasing takedown lights. The MC can create all the white light you will need at the push of a button! This provides increased takedown lighting at no additional cost or loss of emergency warning positions. Available when a red/blue, red/white or blue/white light head is selected and turned to steady burn.

- When dual color is used in the rear, red/amber or blue/amber lighthead modules can change directly to a full size NarrowStik™— No longer give up emergency warning colors to have an amber Narrowstik also. Now you can have both!
- Operate a red/white or blue/white lighthead in a single red or blue flashing mode, a dual color mode that flashes both colors, or switch it to a takedown function that steady burns the white signal to create additional takedown/scene lighting.
- Greater color and flash combinations now possible — Creates more flash patterns and color activity to alert motorists of your presence.

Use Build-Your-Own Configurations above and options on the next page to design your Multi-Color Lightbar.

21IF (Independent Flashing) LED Lightbar Series

Using the new Torus™ technology, the 21IF lightbar series LED lightbar provides more superior light output than our current 2100 models using Torus lighthead. Independent flashing lighthead (no central controller) allows the user more configurability with this lightbar.

Features

- Clear Lens
- Numerous User Selectable Flash Patterns
- Torus LEDs with Independent Flashing Lighthead
- Dimming mode
- 5 Year LED module warranty

RANGER™ LED LIGHTBAR

Great LED Signal, High Quality, Very Affordable Price!

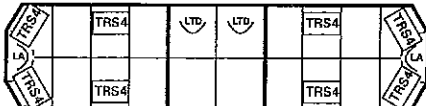

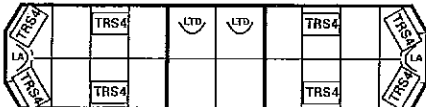

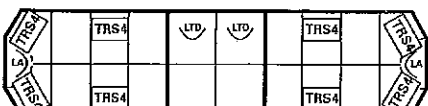

Features

- Available in 36" and 47" Lengths
- Available in a Variety of Configurations:
All Blue, All Red, All Amber, 1/2 Blue and 1/2 Red
- LED Takedowns & Alleys Available
- 20 Flash Patterns available in each smart head
- 5 Year Warranty on LED Modules
- Clear Bottom Lens
- Black Top Lens Standard. Also available in Red, Blue, and Amber to match LED color.
- UV-Resistant Polycarbonate Lens with a smooth exterior for easy cleaning and maintenance
- PermX Mounting Kit

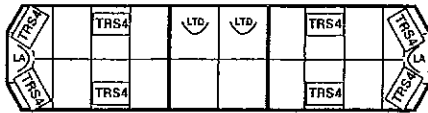

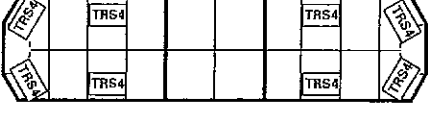

Specifications

- Height: 3.2" (82mm) (without mounting kit)
 - Width: 12.2" (310mm)
 - Available Lengths: 36" (914mm), 47" (1194mm), 58" (1473mm)
 - Max draw: 11.75 Amps at 12 VDC
 - 12 Volt VDC
 - Meets Applicable SAE J845, J575* Specifications when properly configured
 - All versions meet EMC requirements
- * Non SAE versions are only available for countries other than the USA and Canada.

MX 7000®

The Shape You Trust

The innovative and recognizable dual-deck shape of the MX 7000® gives you everything you want in a lightbar. When you control the light, you can control the scene, and the MX 7000 offers up-to-date features that give you the control you need.

The MX's dual decks allow unobstructed rotator power on the upper deck with the flexibility to add special-function lights on the lower deck.

The innovative safety features MX has brought to emergency lighting include:

- Code 3® Torus and LED X™ lightbar modules available for upper & lower decks
- The sweeping intersection light for maximum safety in a high-risk situation

- The built-in ArrowStik®, Halogen or LED
- Combined strobe/halogen flexibility
- Field accessible and replaceable strobe components
- Random cycle flash strobe patterns

Standard Bar Notes

1. Standard lightbars come with 15 feet of power cable exiting on driver's side.
2. LIT3 mounting platform included with mounting adapters at no additional charge on standard bars. Must specify when ordering
3. A 700 flasher included with standard bars with stationary lights or for alley/take-downs. If a different flasher is required, specify when ordering.
4. Filters are included in the price of the bar, where an option is present.
5. You may substitute any wattage bulb and any speed rotator at no additional charge.
6. ALL rotator lamps are 50w halogen, unless otherwise specified.
7. Maximum recommended wattage: 325w per lens section, excluding alley lights.
8. Maximum 650w per lightbar, excluding alley lights & takedowns. For flashing lights, count 1/2 stated wattage.
9. All high-speed rotators that require filters must use cylindrical filters.
10. Specify printed "arrow" filters if desired on ArrowStik®. The standard ArrowStik does not have printed filters.
11. LED Dimming option available at no additional charge. Please specify when ordering.

Standard Bar Notes

1. Standard lightbars come with 15 feet of power cable exiting on driver's side.
2. LIT3 mounting platform included with mounting adapters at no additional charge on standard bars. Must specify when ordering.
3. A 700 flasher included with standard bars with stationary lights or for alley/takedown. If a different flasher is required, specify when ordering.
4. Filters are included in the price of the bar, where an option is present.
5. You may substitute any wattage bulb and any speed rotator at no additional charge.
6. ALL rotator lamps are 50w halogen, unless otherwise specified.
7. MR-11 35 watt lights cannot use filters.
8. Maximum recommended wattage: 230w per lens section, 132w per center section, excluding alley lights & takedowns.
9. Maximum 650w per lightbar, excluding alley lights & takedowns. For flashing lights, count 1/2 stated wattage.
10. All high-speed rotators that require filters must use cylindrical filters.
11. Corner filters not available
12. LED Dimming option available at no additional charge. Please specify when ordering.

Flush-Mount XP 9500™

Forward Facing Design—Seen at All Angles

Design Features

- PriZm™ II Reflector/Optics are available in 3, 8 or 12 LED Lighthouse Modules.
- The X-Fire™ intersection signal fires a signal at 45° in a crossfire pattern to provide expanded intersection visibility.
- Unique daisy chain pod design enhances directional lighting.
- Low Amp Draw
- Flush-Mount or Brow Mount

Options

- Individual Single Section Pod Available as a Mini Bar/Beacon
- 35w or 55w Scene Lights & Alley Lights

Options (cont)

- Single pod minibar with bottom mount (sold in pairs) suitable for Upper Zone C when properly configured. See NFPA section.

Specifications

- Each pod is 12.5" L x 3.38" H x 7" D
- 12.5", 25", 38", 50", 63", 75" and 88" Lengths
- 12 Volt
- Meets all SAE, NFPA, K-Spec and California Title 13 guidelines when properly configured.
- 5-Year Warranty on LEDs

Flush-Mount FM 9000™

Rear Facing Design—Extremely Versatile!

Design Features

- Prizm™II Reflector/Optics available in 3, 8 or 12 LED lighthead modules.
- The X-Fire™ intersection signal fires a signal at 45° in a crossfire pattern to provide expanded intersection visibility.
- Low Amp Draw
- Flush-Mount or Brow Mount

Options

- ArrowStik™ Option
- 35w Scene or Alley Lights

Specifications

- 3" H x 4" D
- 13", 23", 36", 49", 62", 75", and 88" Lengths
- For lengths over 88" contact Customer Service
- 12 Volt
- Meets SAE, NFPA, K-Spec and California Title 13 guidelines when properly configured.
- 5-Year Warranty on LEDs

LARGE BEACONS/MINI BARS

When mounting space is limited, look to our powerful and popular Mini Bars line. As modified versions of our most popular lightbars, our Beacons feature the same powerful lighting components and options, while giving you more mounting options. And like any Code 3® lightbar, many are easily customized.

Defender® Beacons

DUOBEAM™II —NFPA UPPER ZONE C CONFIGURATIONS

Pick one of three lighthouse technologies for this newly designed DuoBeam™II.

Same size and lens with the choice of TriCore, Prizm™II or Torus lighthouses (see page 2 for more information on these lighting technologies)

- Durable and Moisture Resistant
- Colored Lens & LEDs or Clear Lens with Red, Blue, Amber or White LEDs
- Standard Lightbar Mounting (Carriage bolt track)
- Flashing heads or Steady Burn heads available
- 15' Cable
- 10" L x 10" W x 3" H
- 12 Volt
- 0.5 Amps Avg. per Torus Module (double stack)
- 0.8 Amps Avg. per Prizm II Module for 8 LEDs
- 1.2 Amps Avg. per Prizm II Module for 12 LEDs
- 2.0 Amps Avg. for TriCore Module
- NFPA Certified when properly configured
- SAE J845 and California Title 13
- 5-Year Warranty on the LEDs

///CODE 3
A PUBLIC SAFETY EQUIPMENT COMPANY

CODE 3[®] SUPERVISOR[®]

LED Interior Lighting System

Sleekly designed to fit windshield curves and angles as well as reducing and in most cases preventing flash back light from distracting the driver and unseen until energized.

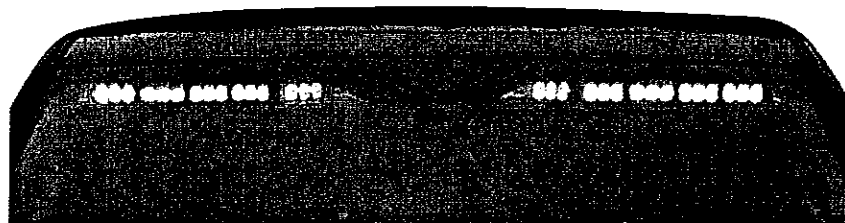

SV999-U

SuperVisor U™ Features:

- Sleekly designed to fit the curves and angles of most vehicle windshields (thus the "Universal" name)
- The adjustable side shield light blocking plates have been designed specifically to block out flash back light from the sides. Smartly designed bracketing and rubber gaskets allow this two part (one on driver's side and one on passenger's side) interior light to be mounted to almost any vehicle.
- (10) independent flashing Torus light heads
- (2) of the light heads are angled and serve as intersection lights.
- Light heads can be synchronized if desired.
- (4) outer mounting bracket sets, (1) inner mounting bracket set, and a set of (4) slotted mounting brackets along with threaded fasteners, and (2) types of bracket washers to fill gaps when necessary.

SuperVisor U™

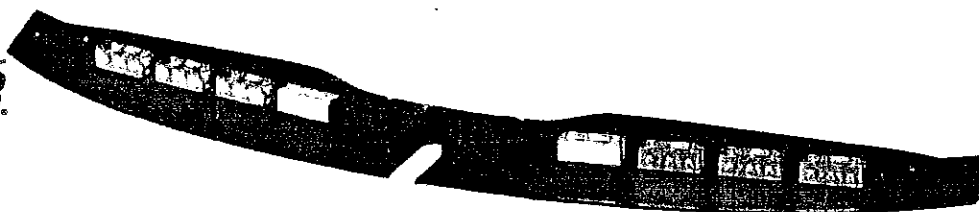

PROD.NO.	DESCRIPTION	LIST
SV999U	Universal Supervisor, (10) Torus Modules, no takedowns	\$1,432.10
SV999U-2W	Universal Supervisor, (10) Torus Modules (upgrade 2 modules to white)	\$1,449.74
SV888-U	5 3-up Torus Modules (4 Forward Facing, 1 at 45° Angle) Passenger's side mount.	\$793.65
SV888U-1W	5 3-up Torus Modules, 1 TD (4 Forward Facing, 1 at 45° Angle) Passenger's side mount.	\$802.47

SV999-U

(see Exterior Lighting Section for more lighting options)

CODE 3[®] SUPERVISOR

Custom Vehicle SuperVisor Features:

- Contoured for installation against the upper interior of windshield between the sun visors and glass.
- No drilling required for mounting & Looks like part of the vehicle at 2" tall
- LEDs available in red, blue, amber, and white
- Multiple LED technologies can be selected for different requirements: Code 3[®] TriCore[®], Torus or LED X[™] modules available
- Independent flash patterns on each head
- Can be wired to external flasher to flash takedown lights
- Draws less than 6 amps on average
- 5 year warranty on lightheads
- MR8 35-watt takedown lights for additional scene lighting (most model)
- Meets applicable SAE standards and California Title 13 when properly configured.

(see Exterior Lighting Section for more lighting options)

CODE 3[®] WINGMAN[™]

WM555CV

The Perfect Partner to the Popular SuperVisor[™]

WM777CP

The WingMan was designed to fit the rear windows in later models of the Ford Crown Victoria, Chevrolet Impala and Dodge Charger. Pair it up with a front-facing SuperVisor, and you have the ultimate in lighting.

- Easy to install, mounting brackets included.
- At 2" tall, the WingMan is virtually undetectable to views from outside the vehicle and will not block driver's view of traffic.
- Long Crown Vic & Charger version (45.9" long) - 6 and 8 module units.
- Short Crown Vic version (25.3" long) - 2 and 4 module units.
- Long Impala version (49.9" long) - 6 and 8 module units.
- Short Impala version (21.25" long) - 2 and 4 module units.
- Crown Vic versions accommodate the rear brake light assembly.

- Multiple LED technologies can be selected for different requirements- Code 3[®] TriCore[®], Torus or LED X[™] modules available
- LEDs available in red, blue, amber, and white
- Custom design nearly eliminates signal flashback into the vehicle interior.
- Meets applicable SAE standards and California Title 13 when properly configured.
- Top windshield mount for the Crown Vic

ARROWSTIK®

This bright traffic-directing signal makes your job easier and safer. It comes with a standard control head or, as an available option, our Deluxe Control Head. Each shows the directing signal in use: Arrow-Left, Arrow-Right, Center-Out, and Alternating Flash. Deluxe Control Head also features fast and slow arrow directional speed control, high & low light intensity (for day/night use) and an auxiliary switch.

INFO ALERT MESSAGE SIGN

See www.code3pse.com for product video showing motorized Info Alert

INF600-A-12-F

INF600-A-12-C

High impact message displays with many types of applications for maximum and effective use in adverse conditions.

Design Features

- Unique Design incorporating Integral Warning Lights
- "Mirror reversible" image as standard
- IP66 Rated model available for exterior mounting
- Ruggedised design for vehicle usage
- Easily programmable software, with up to 100 messages
- Greater visibility
- Available in amber or red characters
- Built in Flip up / down capability (C version only).
- Built in arrow functions

- Optional red and blue warning lights
- Built in mirrored messaging modes

Specifications

- 23 1/2" L (600mm) Fixed & 27" (687mm) Motorized x 5" H (131mm) x 2" W (47mm)
- Input voltage range: 10VDC – 16.0VDC
- Standby current: < 120mA & Maximum current draw 2.50A
- Ambient operating temperature range: -68°F to +140°F (-20°C to +60°C)
- EMC approved

CELS - Coordinated Emergency Lighting System Complete Vehicle Lighting Package for the Ford PI Utility and Chevy Tahoe

NEW!

Features

- Control box can be wired to any switching system currently on the market today
- NarrowStik™ functionality with exterior rear window light (Citadel)
- Dimming capability for all lighting equipment
- Synchronous capability of all lighting equipment
- For use on Ford PI Utility and Chevy Tahoe vehicles
- Multiple Flash Patterns Available
- 6 package options available with a CELS control box and more packages coming!

- CELS Flash Patterns work independently of a lightbar, if one is installed on your vehicle.

CELS Package LED Lighting Components

- SuperVisor U® with bright Torus LEDs mounts inside your windshield with no drilling
- Citadel™ LED Exterior Lighting Systems fits under the Rear Spoiler with no drilling
- Par36 Fog Light is a 4.25 diameter with 7 LEDs per Head
- XT4S LED Lighthead is 4.52" wide, versatile and weather protected for exterior use

Specifications

- Control Box Dimensions: 4 3/4"W x 8 1/2"L x 1 7/8"H
- 15 foot cable
- Weight of Control Box 1 lbs.
- 12 Volts
- 5 Year LED Warranty
- 5 Year CEL's Control Box Warranty

LED PRIZM™ II PERIMETER LIGHTS

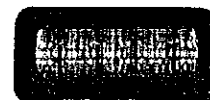

PriZm II LED Reflector Lighthoods for Outstanding Light Output

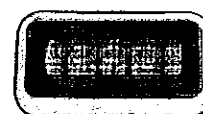

- All PriZm II perimeter lights include an 8 LED PriZm II lighthood (optional 12 LED PriZm II lighthoods available in most models).
- LED colors: Red, Amber, Blue, White, Green & Outer Lens colors: Red, Amber, Blue, Clear
- Easy to install or retrofit, all models are surface mount using the same hole pattern as the 45/65/85 series (no cutouts required).
- Multiple flash patterns. (NFPA Quad default)
- 12 LED PriZm II lighthoods features two color combinations behind a clear outer lens with a left/right split flash pattern. All flash patterns can be internally synced.
- Optional chrome plated bezel
- Applicable to installations requiring NFPA, SAE J595, KKK-A-1822F and California Title 13 (specific colors and sizes)
- NFPA and KKK Certified when Properly Configured

XT SERIES LED INTERIOR/EXTERIOR LIGHTING

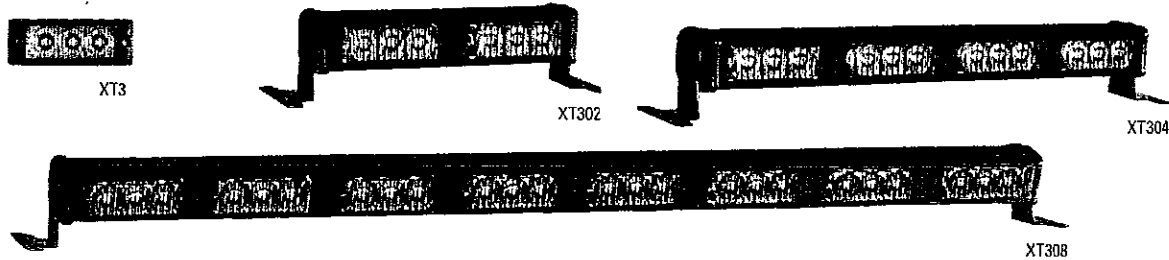

Design Features

- Clear Lens with Red, Blue, Amber, Green* or White LEDs
- Black Bezel/Housing; Optional Chrome Bezel for XT3
- Shock Resistant and Weather Protected for Interior and Exterior Use, Potted Circuit Board
- Universal Mounting Bracket on XT302, XT304, XT308, XT402, XT404, XT602, XT604
- Add 1.25" to Length for Brackets
- Synchronized Flash Pattern Between Lighthoods Standard
- Steady Burn Mode (Auto Dimming after 10-15 Seconds)

- XT604, XT404, XT308, XT304: 30 Flash Patterns
- XT602, XT402, XT302, XT302 Series: 21 Flash Patterns
- XT3: 12 Flash Patterns
- Available in One and Two Color Combinations except XT3 (call for availability for dual colors in single head module)

Specifications

- 12 Volt/24 Volt
- 5-Year Warranty on the LEDs
- Amber and Red LEDs meet SAE J845, Class I
- Blue LED meets J845, Class II

INDEPENDENT LED STEADY BURN LIGHT

Features

- High Impact Black Aluminum Die Cast for Maximum Durability
- Steady Burn White Light
- High Intensity LEDs with Clear Lens for High Light Output
- Water Resistant

- Kit includes One Light, Brackets and Screws
- 2¼" W x 2½" H x 3" D
- 1.5 Amp Average
- 5-Year Warranty on LED Modules

PROD. NO.	DESCRIPTION	LIST
LTD901	Steady Burn LED with clear lens.	\$134.92

SIDE MARKER LED LIGHT FOR THE CHEVY CAPRICE

Features

- High Impact Polycarbonate Constructions
- Standard GM style water-tight wire and cable connections included with connecting components for your vehicle wiring harness.
- 3 T-Rex™ lighthead's in each unit. Available in Red, Blue, White and Amber, Red/Blue, Red/White, Red/Amber, Blue/White, Blue/Amber, Amber/White
- Selectable Color Placement of each T-Rex Lighthead
- Kit includes Both Driver and Passenger Light Units
- Easy plug and snap into place installation — no measuring, drilling or cutting

- Available in three lens colors: Red, Blue and Clear
- 27 User Selectable Flash Patterns and Synchronous Capability

Options

- T-Rex lighthead colors can be specified for each side of vehicle.
- Lens color can be specified for each side of vehicle.

Specifications

- 14" L x 2.75" H
- 1.8 lbs per set
- 12 volt
- 5-Year Warranty on LED Modules

Side Marker Light - Caprice

PROD. NO.	DESCRIPTION	LIST
SML-Caprice	Pair (D.S. & P.S.) of Marker Lights w/3 Trex modules in each pod (specify color of Trex Modules (A, AW, B, BA, BW, R, RA, RB, RW, W)	\$699.24

SHOCKWAVE SIREN

A MODULAR APPROACH TO SIREN AND VEHICLE LIGHTING CONTROL. VARIOUS CONTROLLERS CAN BE CONNECTED TO THE SHOCKWAVE SIREN AMPLIFIER MODULE, ALLOWING GREATER FLEXIBILITY.

Specification:

- Operating voltage: 12V Version or 24V Version
- Dimensions: 5.4" W (138mm) x 6.2" L (156mm) x 2.3" H (59mm)
- Weight : 2.82 lb (1.28 kg)
- Approvals: ECE REG 10.4, E11 10R-04 8014
NPIA ACS 5 (issue 11) KBA, W 25055
- Env. Test Spec. PHE002

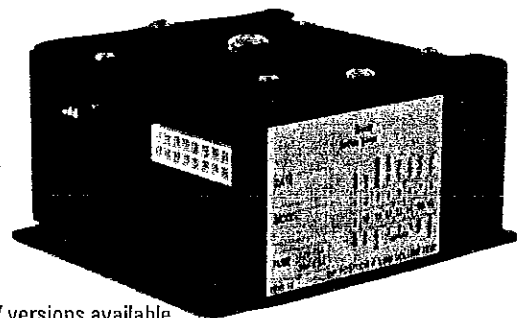

SONIC SIREN

Features

- 100W, 11Ω impedance speaker output.
- Connector Included - Harness assembly available separately
- User configurable tone sets via DIP switches.
- Run input, Horn input, air horn input.
- Operation from negative inputs or from horn press.
- Reduced volume mode for use in workshops
- Low volume start up mode, for sensitive areas
- Available with various country tones
- Relay driver output for horn bypass relay
- 60W or 100W speaker outputs for day and night
- Advanced circuit protection with fault indication:
Over/under voltage protection, Over temperature protection

RLS REMOTE LIGHTED SIREN

The Remote Lighted Siren Series combines all of the best features that Code 3® has developed over the years, plus several innovative features designed for the demands of the 21st century. The best part is that we have designed all of this to fit in a compact control head no bigger than 6.875" long x 3.375" high x 0.875" wide, with a weight of less than 0.5 pound!

Basic RLS with Standard Features

- Instant On
- 200 watt Standard
- Standard Siren Tones include: Wail, Yelp, HyperYelp, HiLo, Hyper-Lo
- Manual Wail with Hold Feature
- Air Horn
- Selectable Hit-N-Go or Horn Ring Scroll Modes
- Output Short Circuit Protection
- Horn Ring Transfer
- Adjustable Back Lighting, externally controlled
- Radio Rebroadcast
- Noise Cancelling Microphone included
- Hands Free (Scroll Off) Option
- 20' Microphone Cable (standard)
- Public Address
- 12 or 24 volt DC Operation
- 3 Level Slide Switch (50 Amp Combined Capacity)
- 6 Auxiliary Push Button Switches (10 Amps Each)
- Custom Legends for Auxiliary Switches that are customer selectable
- InterClear
- Light Alert
- Siren Lock
- Park Kill
- Timed Output

MicroComTM2

The MicroCom2 is the new 21st century replacement of the MicroCom siren. It incorporates all the popular features of the original MicroCom with microprocessor based circuitry and MOSFET (Metal Oxide Semiconductor, Field Effect Transistor) technology. Plus added Code 3® features such as Park Kill, Instant On, Adjustable, Backlighting, Scroll Mode and more.

Dimensions:

Control Head: 4.625"W x 2.625"H x .875"D
Amplifier: 7.625"W x 2.5"H x 7.0"D

V-CON[®]

Code 3®, Inc.'s electronic sirens are compact, easy to use, and reliable. They're also energy-efficient, with solid-state technology that offers the best combination of features and value in the industry.

The V-Con® Siren is available with or without Electronic Air Horn, with Wail, Yelp and either HiLo or HyperYelp™ siren tones, plus Public Address and Radio Rebroadcast. Light control models have built-in relays and seven levels of control, with a 3-level progressive switch and four push-on/push-off auxiliary switches. Hit-N-Go is standard. They may be ordered with common microphone capability for use with the 2-way radio microphone, or with their own wired-in microphone. All models are back-lit for easy night operation. 200w output is standard.

*LFAMP requires InterClear option to be ordered with MasterCom™ at time of order.

CORPION™

The small siren with the BIG sting.

Model 3930

Ease of Use

Siren tone selection at the touch of a button! Scroll between wail, yelp, and hyperyelp without losing the ability to choose the tone you want, when you want it. The Scorpion offers a separate function button for air horn. On the Model 3932, the horn circuit of your vehicle can be hooked to the siren for scrolling of the siren tones and air horn through your vehicle's horn switch.

Instant On

Allows the siren to remain ready for operation instantly without turning knobs.

Output Short Circuit Protection

No more damage to the siren! In the event of a speaker system short circuit, the siren simply shuts down. Once the short is remedied the siren returns to normal operation.

Size

The Scorpion has a very small profile measuring only 6.75" wide x 6.75" deep x 2.25" high, allowing it to fit in almost any location you desire. It has a rugged aluminum case work with a slide track carriage for ease of installation in siren racks, consoles, etc.

Dimensions

6.75" wide x 6.75" deep x 2.25" high

PROD. NO.	DESCRIPTION	LIST
3930	Basic 100w Siren with PA	\$306.64

39324	Full Feature 24v, 100w Siren with PA and Radio Rebroadcast	\$360.92

Model 3932

All the features of Model 3930 plus:

Park Kill

This feature deactivates the siren tones when the vehicle is shifted into park. Once Park Kill is activated the siren will remain deactivated until the vehicle is shifted into gear and the siren is reactivated using the Horn Ring Scroll feature or the front panel switches.

Adjustable Backlighting

Backlighting is independent of siren power. Allows connecting to dimmer if desired.

Horn Ring Remote Scroll

The siren accepts either a positive or a ground (earth) signal, usually from the vehicle's horn switch (or other user-supplied switch), and remotely scrolls through the siren tones or activates AIR HORN function.

Dimensions

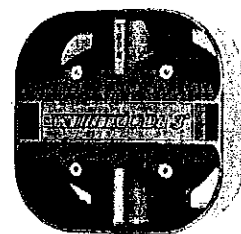

6.75" wide x 6.75" deep x 2.25" high

CODE 3® INC.'s & PSE AMBER LIMITED WARRANTY POLICY

This warranty policy is intended to provide the best possible service experience for our customers. This warranty policy identifies the duration, exclusions, and specific coverage's for each product and the instruction for requesting return authorization. Code 3 and PSE Amber ("Seller") gives this limited warranty to the original purchaser from a distributor ("Buyer") for Code 3, Inc. & PSE Amber's product provided the product is installed and operated in accordance with manufacturer's recommendations. This limited warranty shall not be extended or varied except by a written instrument signed by Seller and Buyer. This limited warranty is for the benefit of the Buyer only and is not transferable.

Steps for Warranty Claims

1. Review this entire warranty policy to verify that the product meets all applicable requirements for a warranty claim to ensure proper processing.
2. Contact the Code 3, Inc. Technical Service Department via telephone (314-996-2800) or email technicalsupport@code3pse.com to request a Returned Material Authorization (RMA) number.

(a) Please be prepared to specify customer account number, contact name, contact phone number, product part/model numbers, product descriptions, quantities, all applicable date codes/serial numbers and description(s) of the non conformance(s).

(b) Do not accumulate product for a period of longer than 30 days prior to requesting the RMA and returning the claims to Seller for processing. Long accumulations of product will delay warranty processing and affect warranty analysis preventing timely action for quality deficiencies. Accumulations of product exceeding 90 days will not be processed.

(c) Product must be returned for service to occur, including replacement or credit.

3. Package the product to be returned to prevent any shipping damage.

(a) Deliver the product freight prepaid.

(b) Only ship the product that has been authorized per the RMA.

(c) Identify the RMA# on the package(s) in BOLD marker next to the product label (if the package does not provide room to hand write the RMA number, then print the number on the shipping label itself).

(d) Returned packages that do not properly display the RMA number will delay warranty processing.

(e) Any product returned that was not included on the RMA will not be processed through warranty.

(f) Credit/replacement will not be granted for product that has not been returned per the RMA.

4. Ship the product to the following address:

Code 3, Inc.
Attention: Technical Service Department
10986 N. Warson Road
St. Louis, MO 63114-2029

5. Once the returned warranty claims are received at Code 3, Inc. Technical Service Department, the product will be analyzed and repaired or replaced per the discretion of the service repair technician.

(a) The returned product must fall within the specified warranty time period to be repaired/replaced at no cost to the customer.

(b) The warranty time period begins at the date of purchase (this start date will begin no later than 12 months from date of manufacture).

(c) For returned product that do not meet warranty require-

ments, a service technician will contact the sender to quote the repair/replacement or to return the product in "as received" condition. (d) Credit will be issued in cases when the product cannot be repaired or replaced.

6. The repaired/replaced product will be packaged and shipped back to the customer location at cost to Code 3, Inc.

These steps are required for all warranty claims. Please contact the Technical Service Department with any questions regarding the claim process.

General warranties unless otherwise stated are as follows:

• LED Modules/Lighting	5 years
• TriCore Light Modules (seal must not be broken)	5 years
• RLS Siren	5 years
• Other Sirens/Speaker Drivers (sirens built after 1/01/2007)	5 years
• Light bars/Beacons	
- LED modules	5 years
- CC boards	5 years
- Power Supply	5 years
- Strobe Tubes	2 years
- Other components/parts (excluding bulbs and lenses)	1 year
• Power Supplies	
- 490	5 years
- 475	5 years
- 460	3 years
- 235	2 years

- Contact the Service Department for all other warranty inquiries not stated within this document.

Use of lamp or other electrical load of wattage higher than installed or recommended by the factory, or use of inappropriate or inadequate wiring or circuit protection causes this warranty to become void. Failure or destruction of the product resulting from abuse or unusual use and/or accidents is not covered by this warranty. Sealed product that shows evidence of broken or tampered seals will cause this warranty to become void.

For out of warranty service, please contact the Technical Service Department (314-996-2800 or technicalsupport@code3pse.com) for quotes and return authorization information.

*Seller reserves the right to repair or replace product at its discretion. Seller assumes no responsibility or liability for expenses incurred for the removal and/or reinstallation of products requiring service and/or repair. Seller assumes no liability for expenses incurred in the packaging, handling, and shipping of the product to the factory service department for repair/service. The remedies provided herein are Buyer's sole and exclusive remedies, whether for claims under and express or any implied warranty, breach of either, tort or otherwise. In no event shall Seller be liable for any special, indirect, incidental or consequential damages arising out of the breach of this warranty or the purchase, installation, ownership or use of Seller's products, nor shall Seller be responsible for representations, warranties or agreements made by any employee, agent or other person that purport to modify or add to any of Seller's obligations under this document. Except as set forth in this limited warranty, Seller makes no other express or implied warranties whatsoever, including, without limitation, warranties of fitness for a particular purpose or merchantability, with respect to the product.

**Seller reserves the right to update the warranty statements, processes and policies. This policy, effective 1/31/2010, supersedes previous versions.

Service Offering For Non-Warranty Repairs

Code 3 offers three levels of service for non-warranty repairs: **Standard Service (10 days)**, **Express (3 days)** and **Rush-Next Day (1 day)**. Days indicated are working days after receipt of order. Standard Service repairs ship UPS Ground. Express and Next Day Service repairs ship UPS Next Day Air. Shipping & Handling is included. Prices are subject to changes without notice. All repaired items are covered by a one-year warranty. Prior to returning an item, you must obtain a Return Authorization Number by completing the on-line form under Technical Support at www.code3pse.com or by calling our Technical Assistance Hotline at (314) 996-2800. Service hours are 7:30 a.m. to 5:00 p.m. CST.

TRICORE® WARRANTY

This product with TriCore® Technology was tested and found to be operational at the time of manufacture. Provided this product is installed and operated in accordance with the manufacturer's recommendations, Code 3®, Inc. warrants all parts and components (with the exception of all incandescent and halogen bulbs) of the product to be free of defects in material and workmanship for a period of one (1) year and TriCore light heads for a period of five (5) years from the date of purchase. This Warranty excludes normal wear & tear. Units demonstrated to be defective within the warranty period will be repaired or replaced at the factory service center at no cost. Code 3, Inc. will return the repaired product with transportation cost prepaid. Code 3, Inc. assumes no liability for expenses incurred in the packaging, handling, and shipping of the product to the Factory Technical Service Department for repair. For in-warranty product return authorization, questions regarding product warranty coverage or questions regarding out-of-warranty repair quotes, contact the Factory Technical Service Department.

The TriCore light heads are sealed as part of the quality control process. This Warranty is void if, in the judgment of Code 3, Inc. (1) an attempt has been made to break the light head seal or repair the light head, and/or (2) the product has been used with inappropriate or inadequate wiring or circuit protection, and/or (3) the product has failed as a result of abuse or unusual use and/or accidents.

Code 3, Inc. shall in no way be liable for any other damages relating to the product including but not limited to consequential, incidental, indirect or special damages or lost profits or revenue; nor any expenses incurred in the removal and/or re-installation of products requiring service and/or repair.

EXCEPT AS SET FORTH ABOVE, CODE 3, INC. MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES WHATSOEVER, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE OR MERCHANTABILITY, WITH RESPECT TO THIS PRODUCT.

Code 3® Inc.

Code 3® designs, engineers, manufactures, and sells a complete line of lighting and sound-based warning products used by police, fire, EMS, and warning (PSE Amber® product line) industries. Our products range from both internal and external emergency vehicle lighting to emergency vehicle sirens, speakers, and accessories.

Based in St. Louis Missouri, Code 3 operates a 69,000 square foot manufacturing plant and ships final product to the U.S., Canada, Mexico and many countries around the world. Code 3 employees utilize quality processes that ensure well-designed products in response to our customers' needs. We employ approximately 200 people focused on innovative products, seamless customer service, and world-class quality.

Product design is fostered by customer feedback, industry trends and a desire to create safer products. By following disciplined, yet innovative approaches to building products we accomplish our goal of creating high quality and well-designed products. New product concepts are thoroughly tested before they are introduced to the market. Tests are run internally and also externally by qualified users. This ensures quality built product upon introduction to our markets. Code 3 and PSE Amber products are designed to meet SAE, California Title 13 and ECE65 standards.

Our Customer Service department is one of the most responsive areas of our business. Customer Service reps are available to assist with product questions, delivery and expedites or to place a customer order. They strive to offer timely resolution on whatever your inquiry may be. Many of our products can be customized to fit an individual customer's needs. Our response to the need for a high level of customization allows Code 3 to remain one of the premier emergency vehicle lighting companies.

Our facility is ISO 9001 certified and we are utilizing Lean Six Sigma throughout many of the plant operations. When products are ordered we have several teams who oversee and help build the product from start to finish. Each team is responsible for a different phase of production. Products are built on one of our 24 assembly or sub-assembly lines. Each assembly line is customized to use the best process and personnel for building a high quality product so we can ship it to our customers as quickly as possible. Many of our employees are cross-trained to work several assembly lines. Some of our products are shipped the same day the order comes in.

Code 3 services many different markets including police, fire, EMS, and warning (PSE Amber). Code 3 produces products that are distributed to over 70 countries including Canada, Mexico, Belgium, Saudi Arabia as well as many others. We sell through a network of over 2,000 distributors world-wide. Since 1974, Code 3 has carried on a proud tradition of innovation providing the emergency, municipal, and industrial professionals brighter, safer and smarter products for their vehicles.
