3.2. SERVICE PARTS WARRANTY

Navistar warrants to its Dealers that it will repair or replace any Service part or ReNEWed® part, distributed through its Parts Distribution Center (PDC) system and/or Fleetrite® or Direct-Ship part, found to be defective in material and/or workmanship, as outlined in this section. PDC sourced parts are covered for 1 year unlimited miles. The time and distance coverage for Direct Ship parts is listed in the appropriate section of the PL-320 (U.S.) or PL-318 (Canada), (Direct-Ship and All Makes Parts Price List).

Approved International® parts installed by a contracted International servicing location on International® vehicles, which are still within the vehicle warranty period, will receive warranty coverage for the balance of the vehicle warranty for that component. Parts furnished in fulfillment of the International Service Parts Warranty – sold over the counter or installed by a contracted International servicing location will receive the balance of the published warranty for the original purchased service part. (One yr unlimited for PDC or as listed in the PL-320 or PL-318 for Direct Ship).

The Dealer agrees that only genuine International parts will be used in the repair of International vehicles, or fulfillment of Service Part Warranty, during the warranty period. The Dealer also agrees that he will not sell (or offer for sale), for repair or use on International vehicles, any parts designated as "Genuine International Service Parts", if those parts are not manufactured by or for the Company, or approved by the Company and designed for use on International vehicles.

This Service Part Warranty coverage applies regardless of the make of vehicle in which the part was installed.

This warranty is IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY AND OF FITNESS FOR A PARTICULAR PURPOSE, all representations to the user/purchaser and all other obligations or liabilities including liability for incidental and consequential damages, on the part of the Company or the seller. No person is authorized to give any other warranties or to assume any other liabilities on the Company's behalf unless made or assumed in writing by the Company. Nothing herein shall limit or reduce the coverage of any new vehicle warranty issued by the Company. This warranty does not cover parts which fail due to abuse, misuse, neglect, alteration, or accident, or which have been improperly lubricated or repaired. Parts that are cleaned, adjusted, or replaced as a part of normal maintenance, i.e., oil, filters, etc., and parts which fail due to progressive damage, are not covered by this warranty.

Service or ReNEWed parts, Fleetrite and direct-shipped parts purchased in the United States or Canada and subsequently transferred outside the United States or Canada have no warranty.

Items contained in separate Accessory Catalogs that are not listed in other Parts On-Line offerings, are warranted by their respective manufacturers, and are not covered by this warranty. Those items available as Fleetrite and/or other vendor 'all makes' products are not covered unless identified in the PL-320 (U.S.), PL-318 (Canada) or in Parts Policy Letters.

3.2.1. PARTS WARRANTY COVERAGE

All service parts sold through the International Parts Group will be warranted 12-months/unlimited miles, from the date of sale if sold over the counter, or the repair completion date if installed by an International Service Location. Labor will also be covered if service parts are installed by an authorized International Service Location. This warranty includes Parts Distribution Center (PDC) supplied service parts, direct-shipped, Fleetrite, and ReNEWed parts. Service parts installed during the vehicle base warranty period only assume the remaining warranty of the replaced part.

3.2.1.1. Competitive Vehicle Labor Reimbursement

Labor reimbursement amounts for replacing or repairing a part installed in a competitive make vehicle, shall not exceed the amount that would have been allowed had the part been installed in a comparable International vehicle.

3.2.1.2. Parts Packaged Incorrectly or Damaged

Claims initiated for the following reasons should not be submitted to the Warranty Administration Group (WAG). File these claims according to the current Parts "G" Letter.

- Claims for damaged parts caused by internal packaging (i.e. staple through head gasket, or fuel tank damaged due to improper crating) should be filed back thru the PDC on a Shipped in Error (SIE) claim per current Parts G-Letter regarding this matter. The PDC should inspect and scrap locally.
- Claims for parts shipped in error or ordered in error should be filed back to your PDC per the current Parts G-Letter regarding this matter
- Claims for incorrect part received (wrong part) should be filed back to your PDC. Per the current Parts G-Letter regarding this matter
- Claims for parts damaged during shipping or storage while in the carriers possession (i.e. external damage to shipping box or crate such as crushed or water soaked) should be filed back to the carrier. Per the current Parts G-Letter regarding this matter. If the damage is concealed damage, not due to a carrier issue, file a Shipped in Error (SIE) claim per the current Parts G-Letter regarding this matter.

Claims for missing parts within a carton/box should be filed as a Warranty Code 55 claim. When the cost to replenish the missing part(s) is 50% or less than the original part cost, a Warranty Code 55 claim may be filed for the replacement of the missing part(s) from a package/kit/assembly.

3.2.1.3. Parts Warranty Limitations

This warranty is for the defective part only; other affected parts are not covered under this warranty. Labor is not reimbursable for repair or replacement of any other part, nor is progressive damage covered by this warranty.

3.2.1.4. Towing

The Parts Warranty does not cover towing expense or travel expense to or from a job site.

3.2.1.5. Parts Warranty Coverage, and Defect Verification

When a part is presented to the Dealer as defective, the Dealer must obtain a copy of the original sale document, and determine if the failure was caused by a defect in material or workmanship. Failures resulting from customer workmanship, abuse, or negligence are not covered by this warranty. After validation, the dealer will repair or replace the part for the customer according to current policy. In the event the customer requests a part of greater value, the cost difference between the failed part and the upgraded part must be charged to the customer.

3.2.1.6. Repair Versus Replacement

Parts that fail during the warranty period may be repaired, rather than replaced, provided the cost of parts and labor to make such a repair does not exceed 50% of the Dealer-net cost of the part. Labor for (R&R) removal and reinstallation of parts sold 'over the counter' is not reimbursable. If the part was originally purchased over the counter and installed by the customer, the expense to Remove and Replace the part is not reimbursable and cannot be calculated as part of the 50% repair cost mentioned above.

3.2.1.7. Identification of Warranted Parts

Service Parts are identified as all applicable parts listed on the Parts Online Web Site.

A. ReNEWed Parts, Fleetrite and Direct-Shipped Parts are included in Parts Online offerings and may be identified in the PL-320 (U.S.), PL-318 (Canada), and related Parts Policy Letters.

B. Engines, Trimmed or Stripped, are identified as those assemblies having at least cylinder heads, oil pan and front cover installed at the assembly plant.

C. Short Block Assemblies are identified as skeleton engines or bare blocks having no more than crankshaft, rods, camshafts and pistons installed by the assembly plant.

3.2.1.8. Batteries

Service parts batteries sold over the counter, or installed in the Dealer service center, are warranted for 100% parts (and labor, when installed in a contracted International servicing location). Warranty coverage's are stated in the PL-320 (U.S.), PL-318 (Canada) or in Parts Policy Letters.

When a Dealer furnishes a battery in fulfillment of the Vehicle Warranty or Parts Warranty, Navistar will reimburse the Dealer at Dealer net cost plus the applicable current parts handling allowance, provided that the battery furnished is a genuine International sourced battery.

The battery warranty shown above does not apply to the recharging of discharged batteries, the use of rental batteries or usage of a smaller group size than that recommended by the vehicle manufacturer. Batteries that fail because they were not used in the application for which they were designed or from the use of additives, or electrolyte other than recommended by International are not covered by this warranty.

- a. This warranty policy does not apply to batteries with damaged containers, covers, or that fail due to misuse, neglect, improper installation, freezing, or failure to perform maintenance. Down time, inconvenience, consequential damages or loss of use of the vehicle are not covered.
- b. Use of the **MidTronics EXP-1000 HD** for battery diagnostics is a required procedure prior to filing warranty claims for confirmed defective batteries. This program will increase vehicle up-time and customer satisfaction by reducing the risk of improperly diagnosing a good battery as the root cause of failure. After testing, the tool provides a pass-fail indicator. The tester also displays a fail code for defective batteries. Battery claims require the failure code be submitted within the warranty claim in order to receive warranty reimbursement.
- c. After the Parts Counterperson has properly tested the battery(ies) with the EXP and the battery tests bad, the failure codes from defective batteries will need to be recorded on the first line of the Complaint, Cause, and Correction (3 Cs) section in the warranty claim by the Warranty Administrator. The failure code submitted in the warranty claim will be validated by the Warranty Administration Group prior to claim adjudication.

For a detailed explanation of the proper use and testing procedures for the EXP and Smart Charger, please view the Training DVD (TCN-080701) or read the Instruction Manual that accompanied the tool.

3.2.1.9. Service Parts Radio Warranty

A. Service part radios are warranted for twelve (12) months. Review the warranty coverage statements for Direct Ship programs for coverage verification on these programs.

3.2.1.10. Parts Core Allowances

Certain failed parts have a core value, which will be credited to the Dealer through warranty. Core credit will be allowed through warranty for ONLY those parts requested to be returned to Company locations for failed material review. Warranty part returns requested to core center locations are credited as regular core credit after the failed part is received not on the warranty claim.

3.2.1.11. Supplier Extended Parts Warranty

Some suppliers publish warranties applicable to their products that are more extensive than our standard warranty. These are warranties of the respective manufacturers and not warranties of Navistar and form no part of the Navistar standard warranty. However, Dealer personnel should, in

the interest of customer goodwill and owner satisfaction, assist customers in arranging for warranty service under such extended warranties whenever possible. Navistar will not administer suppliers' extended part warranties unless a specific agreement to do so exists between the supplier and Navistar.

3.2.1.12. Parts Warranty Labor Coverage

This warranty also covers the cost of labor and any lubricants replaced due to the failure of the warranted part, (when the warranted original service part was installed by a contracted International servicing location) regardless of the "make" of vehicle in which the part was installed.

3.3. Battery Warranty

3.3.1. Original Equipment Factory Installed Battery

Original equipment, factory installed batteries are warranted per the applicable CTS Owners Policy form. Coverage amounts to 100% parts and labor from date vehicle is placed in service (DTU date), as defined in the Owner's Policy. Only International supplied batteries can be used for replacement of factory installed Fleetrite batteries.

Note: During Base Warranty, battery coverage is defined in the owner's Limited Warranty Service Policy issued to the customer at time of purchase. A copy of the owners policy can be found in the Service Portal>>Warranty>>CTS Warranty Form Matrix.

Use of the **MidTronics EXP-1000 HD** for battery diagnostics is required procedure prior to filing warranty claims for confirmed defective batteries. This program will increase vehicle up-time and customer satisfaction by reducing the risk of improperly diagnosing a good battery as the root cause of failure. After testing, the tool provides a pass-fail indicator. The tester also displays a fail code for defective batteries. Battery claims require the failure code be submitted within the warranty claim in order to receive warranty reimbursement.

After Dealership personnel have properly tested the battery (ies) with the MidTronics EXP-1000 HD and the battery tests bad, the failure codes from defective batteries will need to be recorded on the first line of the Complaint, Cause, and Correction (3 Cs) section in the warranty claim by the Warranty Administrator. The failure code submitted in the warranty claim will be validated by the Warranty Administration Group prior to claim adjudication.

3.3.2. eStar Battery & Special Service Requirements

The eStar™ Electric Vehicle Model: EA009 contains a High Voltage Battery and motors which requires special service procedures to be followed. Before starting any repairs on an eStar vehicle reference the most recent WPL or SFN regarding proper maintenance procedures.

WARNING:– The electric drive system utilizes potentially dangerous high voltages. Only trained technicians should service this vehicle. Failure to follow this warning could result in property damage, personal injury or death.

A case file should be started before any service work is started on an eStar™ product. eStar™ vehicle VIN numbers are flagged in the Service Portal with further information.

The high voltage electric vehicle (EV) battery, and certain components within it are considered hazardous material and require special shipping and receiving procedures to comply with federal, state, and local laws and regulations. It is the responsibility of the servicing location to ensure compliance with all federal, state, and local laws and regulations relating to the handling of the EV batteries are followed.

Note: – Improperly towing the eStar™ vehicle can result in serious Internal motor and transmission damage. A 21' roll back type wrecker is recommended for towing the eStar™ vehicle.

A Supplier's major component warranty (where applicable) becomes effective upon the expiration of the standard basic limited warranty on qualified models.

When filing direct to a Supplier for major component extended warranty coverage, the amount of reimbursement is governed by the supplier's warranty coverage policy, not Navistar's base warranty coverage guidelines.

3.5. COMPONENTS REQUIRING SUPPLIER'S PRE-APPROVAL

In order to ensure that the best repair is being made, using the most recent diagnostic and repair practices, some suppliers require the servicing location to secure pre-approval before beginning repairs. The supplier will guide the Dealer to the most current repair process and parts available, as well as which parts to replace and which labor operations to apply to the repair.

All goods supplied are subject to final inspection and acceptance by County notwithstanding payment, prior inspections or approvals. County may require prompt replacement or correction of rejected goods at Supplier's expense, including a reduction in price for rejected goods. Supplier shall not resubmit rejected goods to County without prior written approval and instructions from County. In addition, Supplier shall identify resubmitted goods as previously rejected. Supplier shall provide and maintain a quality assurance and control system acceptable to County.

~~2.9 WARRANTY:~~

~~Unless otherwise agreed to in writing by the parties, Supplier warrants that items ordered to specifications will conform thereto and to any drawings, samples or other descriptions furnished or adopted by County, or, if not ordered to specifications will be fit and sufficient for the purpose intended, and that all items will be new, merchantable, of good material and workmanship, and free from defect. Such warranties, together with Supplier's service warranties and guarantees, if any, shall survive inspection, test, acceptance of, and payment for the items and shall run to County and its assigns. Except for latent defects, the County shall give notice of any nonconformity to the Supplier within one (1) year after acceptance. County may return for credit or require prompt correction or replacement of the defective or non-conforming goods or have the defective good corrected or replaced at Supplier's expense. Return to Supplier of any defective or non-conforming goods and delivery to County of any corrected or replaced goods shall be at Supplier's expense. Defective or non-conforming items shall not be corrected or replaced without written authorization by County. Goods required to be corrected or replaced shall be subject to the provisions of this clause and the clause hereof entitled "Inspection, Acceptance and Approvals" in the same manner and to the same extent as goods originally delivered under this contract.~~

2.10 PAYMENT:

County will pay Supplier for goods upon delivery to, submission of certified invoices with attached tipping fee receipts and acceptance. The County will not be responsible for articles or services furnished without a purchase order. Price is tax-exempt.

2.11 CHANGE ORDER:

County may make changes within the general scope of this contract. If any such changes cause an increase or decrease in the cost of or the time required for the performance of any part of the work, whether changed or not changed by any such order, an equitable adjustment shall be made in the price or delivery schedule or both, and any change order shall be in writing. Any claim by a Supplier for adjustment under this clause shall be asserted within fifteen (15) days from the date of receipt of this written order directing the change, provided, however, County, if it decides that the facts justify such action, may receive and act upon such claim asserted at any time prior to final payment.

2.12 DELIVERIES:

Deliveries shall be made in strict accordance with any delivery schedule contained in the bid specification or contract and in the exact quantity ordered. Failure to adhere to delivery schedule is reason for termination in accordance with the "termination" clause. Deliveries are to be made at locations specified by the County at time of Order.

2.13 RESPONSIBILITY FOR SUPPLIES:

Pursuant to Section 290.560 RSMo, Supplier/Contractor shall employ only Missouri laborers and laborers from nonrestrictive states except that other laborers may be used when Missouri laborers or laborers from nonrestrictive states are not available, or are incapable of performing the particular type of work involved, if so certified by the contractor and approved by the County. Except as otherwise provided, Supplier shall be responsible and bear all risks for loss and damage to goods until delivery at County's facilities, regardless of F.O.B. point, point of inspection or acceptance; and if the goods are rejected.

2.14 SUBCONTRACTS:

Supplier shall not enter into any subcontract(s) in excess of \$25,000 or 20% of this contract price; whichever is less, for any goods without County's prior written approval.

2.15 CHOICE OF LAW:

This bid and contract shall be governed and interpreted according to the laws of the State of Missouri. Venue for any court action shall be in Jefferson County, Missouri.

2.16 TERMINATION:

- A. General: Performance of work may be terminated by the County in whole, or from time to time in part, whenever County shall determine that such termination is in the best interests of County with a thirty (30) day written notice. The Vendor may terminate the Agreement/Contract upon a ~~sixty (60)~~ ^{thirty (30)} day prior notice in writing. In the event of any termination of the Agreement/Contract by the Vendor, the County may purchase such supplies and/or services similar to those terminated ~~and for the duration of the Agreement/Contract period the Vendor will be liable for all costs in excess of the established contract pricing.~~
- B. Bankruptcy or Insolvency: In the event bankruptcy proceedings are commenced by or against Supplier or under any provisions of the United States Bankruptcy Act or for the appointment of a receiver or trustee or a general assignment for the benefit of creditors of either party, County shall be entitled to terminate without further cost or liability. The County may cancel the Agreement/Contract or affirm the Contract and hold the Vendor responsible for damages.
- C. Section 135.040 of the Jefferson County Code of Ordinances (Ord. No. 10-0411) requires that no bid or proposal shall be awarded by Jefferson County unless the prospective Bidder provides proof that the Bidder does not owe delinquent real or personal property, or that the Bidder does not own any real or personal property in Jefferson County. All delinquent real or personal property taxes shall be paid, in-full, prior to the award of any bid, or proof shall be provided that the Bidder does not own any real or personal property in Jefferson County prior to the award of any bid. Jefferson County considers that the failure to pay any and all real or personal property taxes due Jefferson County, Missouri, the failure to report all real or personal property owned, held or used in Jefferson County, the failure to provide proof thereof, and/or the failure to keep said tax bills current shall be deemed a material breach of the contract and will subject the contract to immediate cancellation. All taxes, due and owing, must be paid in full at the time the bid is awarded by Jefferson County and remain paid during the entire term of the contract unless the prospective Bidder provides proof that the Bidder does not own real or personal property in Jefferson County. This requirement shall not apply to the award of bids for projects which are funded in whole or in part by Federal funds.
- D. Default: County may terminate the whole Contract or any part in either of the following circumstances:
- D-1. If supplier fails to deliver the items required by the contract within the time specified; or
- D-2. If supplier fails to perform any of the other provisions of the contract, or so fails to make progress as to endanger performance of the contract in accordance with its terms, and in either of these two circumstances does not cure such failure within a period of ten (10) days after notice from County specifying such failure. In the event of termination under subparagraph 1, County shall have the right to procure, on such terms and in such manner as it may deem appropriate, items similar to those terminated, ~~and to recover from Supplier the excess cost for such similar items, provided, however, Supplier shall not be liable for such excess costs where the failure upon which the termination is based has arisen out of causes beyond the control of Supplier and without the fault or negligence of Supplier. Such causes shall be deemed to include fires, floods, earthquakes, strikes, and acts of the public enemy.~~ The rights of County provided in subparagraph 1 shall be in addition to any other rights provided by law or the contract.
- D-3. In the event of the Supplier's non-compliance with the provisions as set forth, this Contract may be cancelled, terminated or suspended in whole or in part and the supplier may be declared ineligible for further County contracts. The rights and remedies of the County provided in this paragraph shall not be exclusive but are in addition to any remedies provided in this Contract or as provided for by law.

2.17 NOTICE AND SERVICE THEREOF:

Any notice from the County shall be in writing and considered delivered and the service thereof completed when said notice is posted, by certified or regular mail, to the Supplier, at the address stated on the bid form.

2.18 CONTRACT TERM:

Performance shall be governed solely by the terms and conditions as set forth in the Invitation for Bid, Bid Specifications, Bid Form and the Contract notwithstanding any language contained on any invoice, shipping order, bill of lading or other document furnished the Seller at any time and the acceptance by the County for any goods furnished.

2.19 COMPLIANCE WITH APPLICABLE LAWS:

Supplier warrants it has complied with all applicable laws, rules and ordinances of the United States, Missouri or any other Governmental authority or agency in the manufacture or sale of the goods, including but not limited to all provisions of the Fair Labor Standards Act of 1938, as amended, including provisions of the Home Rule Charter of Jefferson County, Missouri requiring all workers performing work under any contract with Jefferson County be paid a wage that is at least the prevailing hourly rate of wages for work of a similar character in Jefferson County.

2.20 ACTS OF GOD:

No party shall be liable for delays, nor defaults due to Acts of God or the public enemy, riots, strikes, fires, explosions, accidents, governmental actions of any kind or any other causes of a similar character beyond its control and without its fault or negligence.

2.21 SELLER'S INVOICES:

Invoices shall contain the following information. The County shall notify the Vendor of the intent to exercise the renewal option. However, failure to notify the Vendor does not waive the County's right to exercise the renewal option.

Yes, this does need an approving Ordinance. Consent. We also need a letter from the Sheriff Department that this is a unique training that for whatever reasons (they need to outline the same) only Jefferson College can perform at their academy. Location, Cost, Program are one of a kind so to say (even though we don't have sole source). Now, I am presuming that this is over \$6000. If not (check last year or whenever) and if it is under \$6000 just a letter saying the same as above and that we cannot get two quotes due to no one else offering the same. Does that make sense.

Wes,

Will you please look at the attached contract in-service training with Jefferson College? Is this something that needs to be put on the agenda? It isn't a grant.

Thank you.
