SPECIFICATIONS FOR TRAP ROCK

The material shall meet the requirements of Section 1003 "AGGREGATE FOR SEAL COATS" of the October 2015 version of the Missouri Standard Specifications for Highway Construction unless otherwise approved by the County Engineer.

The aggregate shall be 3/8-inch maximum size Trap Rock Chips (washed) and shall meet the following gradation (subject to approval by the Engineer):

GRADE B1 TRAP ROCK	SIEVE SIZE	%PASSING (BY WEIGHT)
	1/2"	100
	3/8"	95-100
	NO. 4	0-30
	NO. 200	0-2

Testing reports shall be submitted by the selected vendor(s) to the County Engineer for approval prior to delivery.

Bid Price shall be for County pickup at the plant location listed below. Delivery Cost to County building locations will be an additional cost as listed. Please also provide a cost for various stockpile locations in the County based on the distance from your plant location (if any, locations to be determined after award). Stockpile delivery will receive five (5) working days' notice to fill order. Delivery order will be a minimum of 2,000 tons. Deliveries will be accepted at the locations below between 7:00 AM and 2:00 PM, unless prior arrangements have been made with the County.

Estimated order under this contract shall be a minimum of 5,000 tons and a maximum of 8,000 tons, subject to project need and budgetary limitations. Aggregate will be used as cover rock for seal coat work. Stockpile for seal coat will not begin until after April 1, 2016 and will be completed before June 1, 2016. **All material ordered under this contract may be ordered at stated price until April 1, 2017.**

In emergency, can we call you after regular hours? YES NO

If yes, name party to call: **Resource Integration Center**

Telephone number: 314-739-8855

Minimum Delivery Required (Circle One) Yes No

If yes, amount \$ 365.00 ; 18 ton minimum delivery haul charge per load.

SPECIFICATIONS FOR TRAP ROCK

The material shall meet the requirements of Section 1003 "AGGREGATE FOR SEAL COATS" of the October 2015 version of the Missouri Standard Specifications for Highway Construction unless otherwise approved by the County Engineer.

The aggregate shall be 3/8-inch maximum size Trap Rock Chips (washed) and shall meet the following gradation (subject to approval by the Engineer):

GRADE B1 TRAP ROCK	SIEVE SIZE	%PASSING (BY WEIGHT)
	1/2"	100
	3/8"	95-100
	NO. 4	0-30
	NO. 200	0-2

Testing reports shall be submitted by the selected vendor(s) to the County Engineer for approval prior to delivery.

Bid Price shall be for County pickup at the plant location listed below. Delivery Cost to County building locations will be an additional cost as listed. Please also provide a cost for various stockpile locations in the County based on the distance from your plant location (if any, locations to be determined after award). Stockpile delivery will receive five (5) working days' notice to fill order. Delivery order will be a minimum of 2,000 tons. Deliveries will be accepted at the locations below between 7:00 AM and 2:00 PM, unless prior arrangements have been made with the County.

Estimated order under this contract shall be a minimum of 5,000 tons and a maximum of 8,000 tons, subject to project need and budgetary limitations. Aggregate will be used as cover rock for seal coat work. Stockpile for seal coat will not begin until after April 1, 2016 and will be completed before June 1, 2016. **All material ordered under this contract may be ordered at stated price until April 1, 2017.**

In emergency, can we call you after regular hours? YES NO

If yes, name party to call: Dan Atchoo

Telephone number: 314-678-5074

Minimum Delivery Required (Circle One) Yes No

If yes, amount \$
