Dear Mr. Holman,

This letter is in response to your letter dated June 19, 2017 in regards to the Invitation for Bid/Request for Proposal. Home Depot is more than willing and able to meet your needs in regards to rental equipment as long as the equipment desired is one in which we carry. Please see the attached Price Sheet in regards to availability and pricing.

Home Depot – Festus, understands that the County will pick up the equipment at our store, but may on occasion require delivery to the County's place of business. The Price Sheet reflects our 4-hour, daily, and weekly rates. The monthly rate is based on a three week rental rate.

You can view the equipment available for rent at our store by visiting our web site at homedepot.com/toolrental. We do not have all of the equipment in which you are seeking, but will do our best to meet your needs.

Home Depot – Festus understands that the equipment will be available within (5) five days from the order being placed. We also understand that failure to comply with this requirement will be considered a violation of the terms of the contract and may carry any of the following actions: cancellation of the initial order; reorder with the next lower, responsive, and responsible bidder; or elimination from consideration of future orders.

Home Depot – Festus is eager and looking forward to meeting the needs of the County. If you have any questions in regards to this proposal, please contact me at (636) 933-3368, ext. 393. Thank you for our consideration and hope to be working with you in the future.

About Luby Equipment

Luby Equipment traces its beginnings to 1977 when Bob Luby seized the opportunity to become an owner of Machine Maintenance and Equipment Company. He had begun his career in heavy equipment sales and had experience in everything from cranes to excavators. Initially, the company focused on maintaining and repairing heavy industrial equipment and has grown to include three divisions that sell and service equipment—the "construction equipment division", the "oilfield division" and the "power generation division".

Construction Equipment

The construction division has expanded through acquisitions and branch additions. The first acquisition was Bistate Machinery, the Fiat Allis dealer, in 1989. Three years later, Luby purchased Case Power & Equipment in St. Louis and Cape Girardeau, MO, and branch openings in Illinois followed in Quincy, Springfield, and Caseyville. Today, there are five locations in the construction equipment division.

Oilfields

The beginnings of the oilfield division emerged when the company became a dealer for Ingersoll-Rand water well drills, down hole hammers and bits, and high-pressure compressors. Initially, we focused on servicing the water well industry, but with the explosive growth in the oil and gas industry, Luby naturally increased our involvement with oil and gas drilling activities. There are now three locations that supply equipment, parts and service, including renting compressor packages with operators, hammer and bit sales and rental, other equipment rental including wheel loaders, excavators, long reach fork lifts, man lifts, and other equipment in Arkansas, Oklahoma, and West Virginia.

Power Generation Division

The power generation division was launched in 2005 when Luby Equipment Services was approached by a major manufacturer of power generator products to represent their products in our markets. This division's growth was aided by several ice storms and has become a major division and an integral part of our company. The common thread throughout our company is our emphasis on service and the need for 24/7 emergency response. Luby today sells and supports our Power Generation products throughout Missouri and Illinois with our six full service locations just like we do with other equipment lines. Luby is one of the largest providers of scheduled maintenance contracts in the two state area. We offer our maintenance services to all generator owners and cover all brands of generators.

Our Family Business

Bob's sons, Tim and Steve, grew up in the family business, spending summers helping out in the parts department. Today, both still have their feet firmly planted in Luby Equipment. Tim and Steve are part of senior management in the sales department. Like most successful family businesses, Luby Equipment has a loyal group of employees who have been with the company for many years. They all strive to satisfy customers 100% of the time. The motto they all embrace is, "Equipment is our product. Service is our business."

Our Services

Maintaining a policy of zero downtime, Luby Equipment provides same day parts delivery and on-site service, 24 hours a day, 7 days a week. Technicians undergo extensive training and are certified for any equipment they service. They routinely troubleshoot a situation to identify problems and quickly offer solutions to enhance your equipment's performance.

Our Customers

Luby Equipment's core customer base began with smaller, mom and pop companies. Many of these companies have grown, as Luby has, and customers now range in size from small start ups to very large companies, many of which are second and third generation family businesses. Customers represent a wide range of businesses, construction companies, plumbing contractors, environmental remediation companies, road builders, excavating contractors, utility contractors, landscapers, government agencies, quarries and aggregate processors, oil and gas companies, rental companies, farmers, recyclers and waste handlers, railroad and municipality crews, and all sorts of industries with warehouses and routine maintenances needs.

Our Equipment

When the opportunity arose, Luby Equipment expanded our equipment lines in ways that help customers with their businesses. - B. Bidder is not debarred or suspended from participation in Federal Assistance programs.

2.2 TAXES:

No bid or proposal shall be awarded by Jefferson County unless the prospective Bidder provides proof that the Bidder does not owe delinquent real or personal property taxes to Jefferson County. The prospective Bidder is required to provide proof in the form of an original paid tax receipt issued by the Jefferson County Collector or a verified affidavit stating that the applicant does not own any real or personal property in Jefferson County. Tax receipts for the past 3 years are required and may be obtained at <http://jeffersonmo.devnetwedg.com/> or a notarized affidavit stating that the applicant does not own any real or personal property in Jefferson County on company letterhead.

Section 135.040 of the Jefferson County Code of Ordinances (Ord. No. 10-0411) requires that no bid or proposal shall be awarded by Jefferson County unless the prospective Bidder provides proof that the Bidder does not owe delinquent real or personal property, or that the Bidder does not own any real or personal property in Jefferson County. All delinquent real or personal property taxes shall be paid, in-full, prior to the award of any bid, or proof shall be provided that the Bidder does not own any real or personal property in Jefferson County prior to the award of any bid. Jefferson County considers that the failure to pay any and all real or personal property taxes due Jefferson County, Missouri, the failure to report all real or personal property owned, held or used in Jefferson County, the failure to provide proof thereof, and/or the failure to keep said tax bills current shall be deemed a material breach of the contract and will subject the contract to immediate cancellation. All taxes, due and owing, must be paid in full at the time the bid is awarded by Jefferson County and remain paid during the entire term of the contract unless the prospective Bidder provides proof that the Bidder does not own real or personal property in Jefferson County. This requirement shall not apply to the award of bids for projects which are funded in whole or in part by Federal funds.

2.3 CERTIFICATION OF INDEPENDENT PRICE DETERMINATION:

- A. The prices in the bid shall be independently determined, without consultation, communication, or agreement for the purpose of restricting competition as to any matter relating to price with any Bidder or other person.
- B. Unless otherwise required by law, the prices shall not have been knowingly disclosed by the Bidder prior to opening.
- C. No attempt has been made or will be made by the Bidder to induce any other person or firm to submit or not to submit a bid.

2.4 PRICE:

The price(s) specified in this bid shall be firm and not subject to contingency or reservation. ~~If the Vendor fails to honor stated prices as submitted in the Bid Form or Contract, the County reserves the right to obtain the same items from the next lower vendor who submitted a bid price for the item.~~ The original vendor shall be responsible for the difference in price and required to make restitution to the County for the difference in price. The Bidder represents prices specified in the bid do not exceed current selling price for the same or substantially similar good or service, and are the same as or lower than other prices charged to the Bidder's most favored customer. In the event the stated prices are determined to be higher than the prices for which Supplier has sold the items, or services, to others, this contract price shall be reduced accordingly. **Bid prices are ALL INCLUSIVE: (Shipping, Handling, Delivery, and Assembly to locations specified by the County).** Prices shall be firm for ALL County departments and locations for term of the agreement.

2.5 MISSOURI DOMESTIC PRODUCT PROCUREMENT ACT:

Bidder represents that the goods provided comply with Sections 34.350 to 34.359, RSMo., known as the Domestic Product Procurement Act. The Act encourages the purchase of products manufactured or produced in the United States, State of Missouri, and Jefferson County, Missouri. Bidder shall include proof of compliance with the Act with the bid when requested.

Please list any other rental equipment not specified above.

TERM OF CONTRACT

This contract will remain in effect for 24 months from the date of acceptance. The County of Jefferson reserves the right to renew this contract for an additional 24-month period at the same terms and conditions with the written consent of the successful bidders.

After 12 months in the original contract term, the bidders will be permitted to modify their prices for the remainder of that term. If the contract is renewed for a subsequent 24-month period, the bidders will be permitted to adjust prices again once 12 months have elapsed in the renewal period.
