In the event of termination under subparagraph 1, County shall have the right to procure, on such terms and in such manner as it may deem appropriate, items similar to those terminated, and to recover from Supplier the excess cost for such similar items provided, however, Supplier shall not be liable for such excess costs where the failure upon which the termination is based has arisen out of causes beyond the control of Supplier and without the fault or negligence of Supplier. Such causes shall be deemed to include fires, floods, earthquakes, strikes, and acts of the public enemy. The rights of County provided in subparagraph 1 shall be in addition to any other rights provided by law or the contract.
  - D-3. In the event of the Supplier's non-compliance with the provisions as set forth, this Contract may be cancelled, terminated or suspended in whole or in part and the supplier may be declared ineligible for further County contracts. Attn: Randy Holman

Dear County Clerk,

Fred Weber Reinforced Concrete Products (Fred Weber RCP) is pleased to submit this bid for the 2018 Precast Concrete Drainage Structures Project posted for bid today. Fred Weber RCP is a wholly owned subsidiary of Fred Weber, Inc. (FWI). Fred Weber, Inc. was formed as a small construction company in 1928 and through 90 years of business, has diversified to include Materials sales, Contract Mining, Asphalt Production, etc.

In September of 2015, Fred Weber, Inc. acquired BECO Concrete Products to offer more products to our customers. FWRCP/BECO has been producing concrete products for over 37 years, with locations in St. Louis, MO and Fulton, MO. In 2017, FWRCP moved the St. Louis operation to Sunset Hills and reopened the Independent Concrete Pipe Plant. During this move, the plant was rebuilt with state-of-the-art equipment to improve the quality and efficiency of the products provided.

FWRCP can produce many products to serve the drainage needs of many Municipalities and Owners. Some these products include:

- Reinforced Concrete Pipe – 12” – 144” Round Pipe
- Precast Box Culvert Structures – 4’x2’ to 12’x12’
- Manhole Products – 42” through 96” Diameters
- Drop Inlet Structures – 2’x2’ through 8’x12’
- Storm Retention Systems – Pipe and Box Culverts

At FWRCP, quality is the second most important aspect of our operation behind safety. We pride ourselves in having quality products available, on time, and delivered to the projects when needed. FWRCP is certified by MoDOT, IDOT, and MSD. We also participate in the American Concrete Pipe Association’s Voluntary Quality Control Program, Q Cast. Q Cast is a program that is administered by a third party (Wiss, Janey, and Associates), that audits precast plants throughout the year. These audits are carried out through unannounced inspections to check records, testing frequencies, results, etc. This program is what MoDOT has accepted to relieve them of the plant inspections they used to do internally. FWRCP is very proud of the high scores

that we have received through this process. Braden Schrum is the Quality Control Manager for our operation and holds ACI, IDOT, and ACPA Certifications.

A list of recent projects performed by FWRCP is attached to this letter. We also would like to invite anyone within your organization to attend a plant tour. These tours are instrumental in showing the quality of concrete products and their resilience throughout the design life of the products in the field. Please contact me to arrange a tour.

FWRCP is fully capable of building all the products needed by Jefferson County Public Works. We are excited for the opportunity to work with you. If you have any questions, please contact us at (314) 892-7400.

Sincerely

Michael J. Ax, P.E.
